

Editor's Letter

Dear readers,

This issue is going to be exciting because our guest today is Pearson-Dinternal in Ukraine, a well-known International educational centre, which agreed to share its handouts and information with our readers.

To get to know more about the centre, firstly, read the interview with the Founder and Head of the centre, and, secondly, read an article to find out what types of educational services it provides.

I'd like to draw your attention to a new rubric called *Expert's Opinion* where you will find the answers to the questions concerning Independent testing, or ZNO, in 2016. The article about international certificates is going to be no less interesting as well. There are a lot of folk, national and international holidays in English-speaking countries in February, so don't leave the rubric of *Language Workshop* without attention.

The *Supplement* is dedicated to a problem of effective and fruitful preparation for Independent testing in English, so it can be useful both for teachers and school leavers.

Make sure you'll find a lot of useful stuff. I hope you'll have a great time, learn something new and get useful ideas with our paper. Hope to meet you all in the next issues.

*Yours faithfully,
Olena DONNYK,
Editor-in-Chief*

**You can never be overdressed
or overeducated.**
